

DESHVENTHAN K

+91 9940552027 — deshventhank491@gmail.com — LinkedIn

PROFILE SUMMARY

Aspiring Software Developer with a strong interest in **Artificial Intelligence, Machine Learning, and Generative AI systems**. Experienced in building full-stack web applications and IoT-integrated systems, with exposure to computer vision and real-time data processing. Passionate about research-driven development and scalable architectures.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, C, SQL

Artificial Intelligence & Machine Learning: Regression, Classification, Clustering, CNN, RNN, OpenCV, Intro to LLMs

Web & Backend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Node.js, Express.js, Flask (basic)

Data Structures & Algorithms: Arrays, Hashing, Recursion, Basic Graph Algorithms, Backtracking

Databases & Tools: MySQL, Git/GitHub, Power BI, Excel, VS Code

IoT: Arduino, Raspberry Pi, Sensors, Actuators

EDUCATION

Master of Computer Applications (MCA)

Vellore Institute of Technology, Vellore

CGPA: 7.85

Jul 2025 – Present

Bachelor of Computer Applications (BCA)

Vellore Institute of Technology, Vellore

CGPA: 7.44

Sep 2022 – Jun 2025

Higher Secondary Certificate (HSC)

Lakshmi Garden School

May 2022

PROJECTS

Multi-Model Seizure Detection System (IoT + ML)

- Developed an IoT-based healthcare monitoring system for real-time seizure detection
- Applied machine learning techniques on multi-sensor physiological data
- Designed a data fusion pipeline to improve prediction accuracy
- Built a web dashboard for real-time monitoring and alerts

Gesture Control System (Computer Vision - OpenCV)

- Built a real-time gesture recognition system using OpenCV
- Implemented hand tracking for touchless human-computer interaction
- Enabled gesture-based control of systems and devices

Blood Bank Management System (Web Application)

- Developed a full-stack web application for donor and inventory management
- Designed a relational database for real-time blood tracking
- Built secure modules for hospital access and emergency requests

Functional Restaurant Website (Full-Stack)

- Developed a responsive web app with backend integration
- Built a secure customer ordering system with an integrated backend for seamless data management.
- Engineered a user-friendly admin dashboard to streamline inventory tracking and order processing

RESEARCH INTERESTS

Generative AI, Large Language Models (LLMs), Intelligent IoT Systems, Computer Vision

ADDITIONAL STRENGTHS

- Communication
- Teamwork
- Strong problem-solving ability
- Adaptability
- Interest in research and emerging technologies
