Dharmapuri, Tamil Nadu

Professional Summary

Results-driven MCA student with strong foundations in software development, data analytics, and machine learning. Experienced in developing AI-enabled applications, full-stack web solutions, and privacy-preserving machine learning systems. Passionate about leveraging data and intelligent technologies to solve real-world problems and seeking opportunities in Data Science, AI/ML, and Software Development.

Education

Master of Computer Applications (MCA) Vellore Institute of Technology, Vellore	2025 – 2027 CGPA: 8.98
Bachelor of Computer Applications (BCA) Presidency College (Autonomous), Bangalore	2022 – 2025 CGPA: 9.49

Technical Skills

- **Programming Languages:** Java, Python, JavaScript, C, R Programming
- **Web Development:** HTML5, CSS3, React.js, Node.js, Express.js, MERN Stack
- **Databases:** MongoDB, MySQL, SQL
- **Data Science:** Data Analysis, Data Visualization, Pandas, NumPy, Scikit-Learn
- **AI/ML:** Machine Learning, NLP, Federated Learning
- **Tools:** Git, GitHub, Power BI, VS Code, MS Excel

Projects

Magical Tax Genie – AI-Enabled Tax Management Platform

- Developed a full-stack MERN application for automated income tax calculation and financial analysis.
- Implemented JWT-based authentication and role-based access control for secure user management.
- Integrated AI-powered tax-saving recommendations and chatbot assistance.
- Automated document processing to extract financial data and generate personalized tax insights.

Lung Cancer Detection Using Federated Learning

- Implemented a federated learning framework to train machine learning models on distributed healthcare datasets.
- Ensured privacy-preserving model aggregation while maintaining security, compliance, and scalability.
- Applied machine learning and data analysis techniques for secure healthcare AI solutions.

InterviewIQ – AI-Powered Interview Performance Analyzer

- Developed an AI-based platform to evaluate mock interview recordings using speech recognition and NLP techniques.
- Implemented filler-word detection, speech-rate analysis, sentiment analysis, and confidence scoring.
- Generated personalized interview feedback and actionable improvement recommendations.
- Built an interactive dashboard using Python, Streamlit, and machine learning libraries.

Certifications

- | | |
|---|-----------------------------|
| • Data Analysis with R Programming – Google (Coursera) | Credential ID: C8E4F5OAU9PY |
| • Data Analytics and Visualization Job Simulation – Accenture (Forage) | |
| • Foundations of Cybersecurity – Coursera | Credential ID: 35X726UTPFTD |
| • Data Visualization with Power BI – Great Learning | |

Achievements

- Participated in Smart India Hackathon (SIH), contributing to the design and development of an innovative solution for real-world problem statements.
- Secured the position of **Second Topper** in the Bachelor of Computer Applications (BCA) program with a CGPA of 9.49.
